

SCOE RFP Answers – Year 22

RFP – SCOE YR 22 RFP 19-100 Wireless and Firewall Equipment

Q: What process is to be followed for quoting a firewall product other than the requested Juniper firewall?

A: As per the E-Rate rules, you may quote out a different firewall product that provides the same services and features as the one requested. This firewall will be used to create a VPN tunnel back to our central office.

Q: Are you seeking any additional security services not listed in the RFPs?

A: We are seeking quotes for equipment only (including 1 year of support if available). We are not requesting any installation or professional services. We also cannot provide any information regarding our internal security systems or infrastructure for security purposes.

No questions were submitted for RFP19-101 Uninterruptible Power Supply (UPS) equipment.
